

Press Release
16 January 2013

Received an order equivalent to 83% of its capacity in one single order

Altınyag Combine Inc., traded at Borsa Istanbul under ALYAG code, received an order equivalent to 83 percent of its capacity for 2013. Concentrating on crude vegetable oil production in the last quarter of 2012 and increasing its annual oily seed processing capacity to 140 thousand tons with the additional investments, Altınyag Combine Inc. made an agreement with Hakan Gıda for an order of 100 thousand tons. With the contract, Altınyag Combine Inc. will process 100 thousand tons of oily seed during the year to meet one-year need of Hakan Gıda. First party shipment has started.

Pursuant to the order agreement signed between the companies on 15 January 2013, Altınyag Combine Inc. will process oily seeds, such as soya beans, sunflower seeds, canola seeds, linseed and camelina seed for Hakan Gıda on contract basis.

Production will be made in the facilities of Altınyag Combine Inc. located in Izmir Ataturk Organized Industrial Zone.
