**4 September 2012**

## **Altınyaz Combine Inc. to grow with crude vegetable oil production**

**Altınyaz Combine Inc., traded at Istanbul Stock Exchange under the code ALYAG, will concentrate on crude vegetable oil production instead of refined oil production, which it finds more profitable. Pursuant to the decision taken due to the worldwide increase in crude vegetable oil prices, and thus the decrease in the profit of refined vegetable oil producers, and the existence of greater opportunities in crude vegetable oil production area, the production of refined vegetable oil is ceased, whereas the annual oily seed processing capacity that accounts for 9.56 percent of the capacity will be increased by 50 percent to 180 thousand tons.**

Updating its investment plans due to the worldwide increase in crude vegetable oil prices and greater opportunities in the crude vegetable oil market, Altınyaz Combine Inc. is now focusing on growth through crude vegetable oil production.

Altınyaz Combine Inc. has decided to cease its refined and packaged vegetable oil production that accounts for 9.56 percent of its capacity, and increase its crude oil production capacity from 40,19 to 80 percent. It will get into the market from Izmir by producing 180 thousand tons of crude vegetable oil per year.
